accounting for income taxes. It prescribes a recognition threshold and
measurement attribute for financial statement recognition and measurement
of a tax position that an entity takes or expects to take in a tax return.
An entity may only recognize or continue to recognize tax positions that
meet a "more likely than not" threshold. The Organization assesses its
income tax positions based on management's evaluation of the facts,
circumstances, and information available at the reporting date. The
Organization uses the prescribed more likely than not threshold when
making its assessment. There are currently no open federal or state tax
years under audit.
